MEMORANDUM

FOR : The CENR Officer
DENR-CENRO Belison

THRU : The Chief, Enforcement and Monitoring Section
DENR-CENRO Belison

FROM : The Forest Ranger's/LAWIN Team I

SUBJECT : **ACCOMPLISHMENT REPORT IN THE CONDUCT OF LAWIN FOREST AND BIODIVERSITY MONITORING SYSTEM**

This is in line with the implementation of LAWIN Forest and Biodiversity Protection System using the Cyber tracker being undertaken by the Enforcement and Monitoring Section. The LAWIN Patrol Team I had conducted foot patrol within the timber land area of Barangay San Ramon, Laua-an, Antique.

On August 2-5, 2022, the LAWIN Patrol Team I headed by our team leader FR. Chris Patrick R. Dalumpines, FR's Melquiades H. Panaguiton and FR. Warren J. Sustento members, conducted patrolling and monitoring activities in the timberland area of Barangay Iglinab Municipality of Valderrama, Province of Antique.

Upon arrival at Barangay Iglinab proper the team coordinated to Officer of the Day Brgy. Kagawad Rustico Sasi, Jr. and talked about the purpose of our travel, the team asked for his assistance or to guide us, since there were no available the asked a safest direction, thereafter, the team proceeded to the timberland area.

Upon reaching in the timberland area, the starting point, the team opened the Cybertracker application and took geotagged photos of the team's members and started the foot patrol. During the foot patrol a 100 meters' distance or every 15 minutes walked by the LAWIN team through Cybertracker application, observed different threats.

Below are Findings and Observations:

1. The established patrol route has an elevation of 500-600 meters above sea level.
2. The forest conditions observed were composed of early secondary growth forest species like Payhod, Toog, Pagsahingin, Antipolo, Tan-ag, Gmelina, Narra, Mahogany, Balud, Agdao Ipil-ipil, Native Lumboy, Dungon, Kapok, Tapuyay, Tan-ag, Pag-uringon, Kabahoy, Pangadlawan, Inyam, Manga, dita and other miscellaneous trees species.
3. There was a *Rafflesia speciosa* species found inside the timberland during foot Patrol.

4. The team had accomplished 7.09 kilometers of continuous foot patrol and there were no threats observed by the team during the patrolling and monitoring activities.

Action taken:

- We took geotagged photos and recorded the observation of forest condition.

Recommendation:

- Continuous patrol work within the areas for visibility of DENR Personnel and monitoring activity to prevent the occurrence of any illegal activities.
- Continuous Information Education Campaign (IEC) to help educate the local communities of the particular sitios/barangay of the existing Environmental Laws Rules and Regulation.
