MEMORANDUM

FOR : The CENR Officer
DENR, CENRO, Belison, Antique

THRU : The Chief, Conservation and Development Section

FROM : Protected Area Personnel and Staff

SUBJECT : ACCOMPLISHMENT REPORT AS PER TRAVEL ORDER DATED July 26-29, 2022.

Please be informed that as per approved Travel Order dated July 26-29, 2022, the Protected Area personnel and staff headed by PASu Anthony E. Evangelio, with DPASu Joery D. Oczon, PMF Darlene C. Porras, PAMO Staff Erlis Joy Vicente and Gwyn Paduganao together with the LGU laborer proceeded to Sibalom Natural Park at Brgy. Imparayan, Sibalom, Antique.

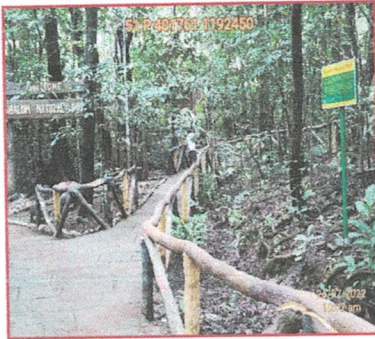

Upon arrival, PA staff and personnel confer with Hon. Rexso Raymundo and Bantay Gubat Chairman Arnold Agting and discussed the proposed activities of Sibalom Natural Park.

PASu Anthony E. Evangelio together with PAMO staff supervised and assisted the laying-out of underground power lines for Sibalom Natural Park. This is also part of the maintenance and protection of the facilities.

To assess the training that DENR had provided to the BDFE beneficiaries, PAMO staff Gwyn Paduganao, Erlis Vicente and PMF Darlene C. Porras travelled to Brgy. Tordesillas to assess the Biodiversity-Friendly Enterprise (BDFE) that was given to Bantay Gubat member and community of Brgy. Tordesillas. During the assessment to some of the beneficiary they were very happy to inform the office that they are now applying the knowledge on how to make pandesal, bake, and pastry making. They are now selling pandesal in the community. According to them it gives additional income to them to support their daily expenses. The income derived from selling pandesal were spent for their foods, student allowance, and for household needs. Some of the members bought curtains, plates and pillow cases.

As part of the CY 2022 target specified on the Work and Financial Plan of the Protected Area, PAMO staff attended and facilitated the 61st Protected Area Management Board Meeting held at Parvana Inn and Suites last July 29, 2022, wherein it was attended by 45 participants (17 females; 28 Males). The SNP-PAMB had six (6) resolutions passed during the meeting.

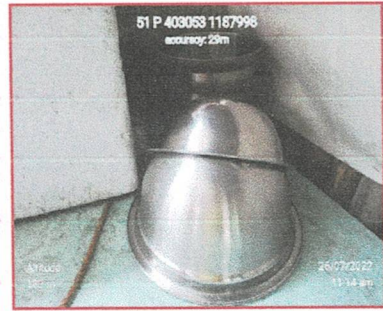

PHOTO DOCUMENTATION

Above photos the PAMO staff with LGU hired labourer during the conduct of maintenance and protection of SNP Ecotourism facilities and structures and underground lay-outing of power lines of SNP.
