MEMORANDUM

FOR : The CENR Officer
DENR, CENRO, Belison, Antique

THRU : The Chief, Conservation and Development Section

FROM : Protected Area Personnel and Staff

SUBJECT : ACCOMPLISHMENT REPORT AS PER TRAVEL ORDER
DATED AUGUST 09-12, 2022.

Relative to the continuing activities under the Natural Resources Conservation and Development Program for proclaimed and legislated Protected Areas, the PAMO staff and personnel with the supervision of Protected Area Superintendent (PASu) Anthony E. Evangelio conducted maintenance and protection of Sibalom Natural Park Ecotourism Facilities, and other related activities within Sibalom Natural Park vicinities on August 9-12, 2022.

The PAMO personnel conducted maintenance and protection of Sibalom Natural Park Ecotourism facilities. The maintenance and protection of facilities was monitored closely to ensure that the facilities were in good condition. The PAMO staff identified some facilities needs immediate repair such as roofing and ceiling of comfort room, ceiling of cottage one (1).

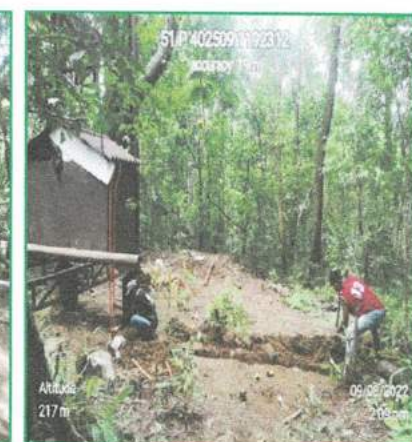

To ensure the continuity of the service of the electrical facilities of the PAMO office the staff with the LGU hired laborer assisted the ground lay-out of the electrical line for the entire PAMO office. This is to ensure that the supply of electricity in the office will not hamper the activity of the personnel. Aside from the maintenance and protection of the facilities, the PAMO staff conducted identification of native trees within the SNP vicinities for name tagging. This will give a better identification on the species and genus of trees within SNP. It will also help for the visitors to know what are the native trees that are commonly thrive in the park.

On August 11-12, 2022 Protected Area Superintendent Anthony E. Evangelio, DPASu Joery Oczon with PAMO staff and LGU hired laborer conducted ground truthing of existing SPZ within SNP as part of PA management zones and buffer zones ground delineation.
